The Double T Bar Stand with Extended Frame is a robust lighting support fixture designed to hold multiple lighting fixtures, providing superior versatility for events. Featuring two T-bars, this stand allows for an extensive array of lights to be mounted simultaneously, making it ideal for DJs, bands, and stage productions. The extended frame enhances stability and balance, ensuring your lights are securely positioned for optimal illumination. Easy to assemble and transport, this stand is perfect for creating dynamic lighting displays at concerts, parties, and other events, enhancing the overall visual experience.

A portable lighting kit with 2 x T-Bar stands connected by 2 x joined bars totalling 3m width. Ideal for presenting par cans, moving head lights, DJ effects and to frame a DJ stand etc.

1 Available R650.00 Per Unit Rental

The T Bar Light Stand is a versatile and sturdy support system designed to hold multiple lights, making it ideal for DJs, bands, and events. Its T-shaped design allows for the easy mounting of lights, providing even illumination and optimal coverage of your performance area. Constructed from durable materials, the stand typically features adjustable height settings to accommodate various event needs and can be easily assembled and disassembled for transport. This stand is perfect for creating dynamic lighting displays, enhancing the atmosphere at parties, concerts, and other gatherings.
